

# FAHIM NIRJON

FULL STACK DEVELOPER

Dhaka, Bangladesh

Email: [fahimnirjon21@gmail.com](mailto:fahimnirjon21@gmail.com) || [LinkedIn](#) || [GitHub](#) || [Portfolio](#) || WhatsApp: +8801713865204

## OBJECTIVE

Experienced JavaScript programmer with three years of hands-on expertise. Basic understanding in data structures, algorithms, and problem-solving. My expertise also extends to a wide range of popular frameworks, including, Tailwind CSS React.js, Next.js, and Express.js Frameworks.

**SKILLS Expert:** Next.js, React.js, JavaScript (ES6+), React Router, Tailwind CSS, Express.js, Framer Motion.

**Comfortable:** Node.js, Express.js, MongoDB, ShadcnUI, Firebase, JWT, RESTful APIs, PostgreSQL, GSAP.

**Tools:** Git, GitHub, Netlify, Vercel, surge, Dev-tools, VS-code, Chrome dev-tool, Prisma, Clerk

**Hobbies:** Football, Chess, Cricket, Badminton, Play Pc Games etc.

## PROJECTS

### Gaugearam Hessel

[Live-link](#) [Client-side](#) [Server-side](#)

Gaugearam-Hessel-Client serves as an excellent starting point for developers looking to create high-performance, scalable web applications with a modern tech stack. Its combination of React, Vite, Firebase, and Tailwind CSS provides a comprehensive foundation for building dynamic user experiences while maintaining a clean and organized codebase. Whether you're building a small project or a more extensive application, this template streamlines the development process and sets the stage for future growth.

- React + Vite template for optimal performance and quick setup.
- Hot Module Replacement (HMR) for a seamless development experience.
- Firebase integration for hosting, database, and authentication services.
- Tailwind CSS for sleek, responsive, and customizable designs.
- ESLint rules for maintaining clean and error-free code.
- Modular and scalable architecture for future improvements.

**Technologies:** React.js, React Router, Node.js, Daisy UI, Firebase, JWT , Material-Tailwind, axios, Tanstack-Query.

### PixelForge AI

[Live-link](#) [Github-Link](#)

Pixel-Forge-AI is a complete AI Prompt Selling Marketplace, designed to help you launch your AI startup effortlessly. With a focus on ease of deployment and control, it's ideal for both newcomers and experienced developers. The project comes with a separate Admin Dashboard for seamless management.

- Ready-to-deploy AI prompt marketplace, saving time on setup.
- Admin Dashboard for full control over marketplace content and users.
- Scalable architecture to support future growth and expansion.
- Modern UI/UX powered by Tailwind CSS for a sleek and responsive design.
- Built-in AI prompt selling functionality for easy monetization.
- Prisma integration for efficient database management.
- TypeScript support ensuring robust, type-safe development.

**Technologies:** Next.JS, Typescript, NextUI, TailwindCSS, ShadcnUI, Clerk, MongoDB, Prisma

Threads-Nextjs is a modern web application built with Next.js, featuring server-side rendering (SSR) and static site generation (SSG) for optimal performance and SEO. Utilizing TypeScript ensures type safety, while Tailwind CSS provides a flexible and responsive design framework.

- Next.js for fast load times and dynamic content handling.
- TypeScript for robust, type-safe development.
- Tailwind CSS for utility-first styling and responsive design.
- PostCSS for CSS optimizations like minification.
- Modular architecture for clean and maintainable code.
- Middleware support for custom request handling and security.

**Technologies:** Next.JS, Typescript, MongoDB, Prisma, Clerk, ZOD, ShadcnUI, Serverless API, Framer Motion

EDUCATION

HSC 2019 Notre Dame College    ||    BSc. in CSE (2022-2026) Bangladesh University of Business and Technology

LANGUAGES

Bengali: Native        English: Fluent        ||        Hindi/Urdu: Communicative

Certifications and Credentials

1. BohuBrihi.com

Javascript Mastery	<a href="#">See Credentials</a>
Digital Product Management	<a href="#">See Credentials</a>
introduction to Data Analytics	<a href="#">See Credentials</a>

2. Ostaad E-Learning

Full Stack Web Development	<a href="#">See Credentials</a>
Cyber Security Fundamentals	<a href="#">See Credentials</a>
